Unusual jobs

Waterslide tester

Peggy Prifti
C' Senior

Waterslide testers have a great responsibility but also a great risk. It is a job that needs a lot of attention.

Waterslide testers have to test the slide 100 times to be sure that there won't be any accidents in the future. Of course no one can confirm this as every day we hear of many accidents some of which even lead to death.

Testers will also have to be careful for their own lives. It's a scary idea that somewhere a screw might not be screwed in properly but everything is based on a plan. Their salary is high. They can earn up to 25000€ a year, so it comes out to around 2000€ a month.

Movie Watcher

The most unusual job that I have heard of is the Movie Watcher. It's true! Some people get paid to watch movies and series. Though somewhat rare to come by, Netflix has a role titled "editorial analyst", which entails watching, rating, tagging annotating their shows. Dream job or what?

I will never do this job because you only sit in a chair or a sofa and watch movies and series for the rest of your life, I don't know someone who does this job.

The world says that TV is bad for your eyes and by the way is true and some people do this for living! I think that this job is weird because if you watch TV for a lot of hours you get tired and your eyes will hurt. Their salary varies and it is their choice how much money they earn. I think that it isn't fair because some people work very hard to live and they only earn little money.

Racing driver

One of the most rare jobs is that of a racing driver. This is a job everyone sees as a hobby or a sport, but it really is not. There are many categories of Motorsport and each one requires different driving skills. Every driver has its own way of driving and has to pass 3 tests in order to take part in a race.

*Marios Zera
C' Senior*

These drivers can earn at least 500000\$ a year and they pass all year long travelling all around the world. In my opinion these people are the best because they have one of the most exciting jobs ever.

One of the most well known is the DTM category. DTM (Deutsche Tourenwagen Masters) in English stands for German Touring Car Masters. The drivers here have to do things before they get a seat. First, they have to obtain an F1 class driver's license. Then, they have to pass some tests. After that, they have to try the car and then deposit 50000\$ to make a contract.

Mystic two STRIKE back!

Our heroes are back with a brand new challenge and a lot of mystery. Jack and John are preparing for middle school and everything is quiet in the neighborhood.

The previous day they were very nervous because the new school year will be very different. The first day at school was very weird because they found out that there is another detective in their school. The kid's name is Mike and he's 2 years bigger than the boys. They discovered that there is a new case! Someone steals the newspapers from the store near the school. Mike wants to steal the case from the boys but the boys are determined to solve the case and win the duel. The boys were looking everywhere in the town to find and to solve the case faster than Mike.

Ilias Katsaros
C' Senior

After a long time searching they found out that the newspapers are in an abandoned warehouse. They entered the warehouse and suddenly they saw Mike who was already there. They heard a noise and saw the newspaper's thief that was trying to trap them. John said " I think that the duel must stop! We can all be a team together!" and Mike said "I think that good detectives should cooperate to catch the villains!"

Mike had brought his bike so he took it to get to the nearest police station while the kids were distracting the thief.

Finally, the police came to the warehouse and caught the thief. The police officers congratulated the boys and they became front page of their school newspaper and heroes of the town.

THE
END

Do you feel hungry??

You are in the right place!!!

My favorite food is spinach with tomato sauce.
Cook the spinach with: Onion, spinach (of course), tomatoes, salt,
paper, rice, oil and lemon.
It has to be cooked for half an hour. Easy, healthy and delicious!!

Dimitra Pasvaga
B' Senior

A secret recipe

First we put water, salt, ground beef, onion, garlic, pepper and parsley and we mix. Later we start making the dough. We need flour, egg and water. We mix and we knead. We mold the dough and cut it with a glass and we put the beef inside. We close it. In boiling water add dough with the ground beef and boil it for ten minutes.

Don't ask meI'm not going to tell what is it 😊

Jim Bakoulis B' Senior

Spice Cup cakes

First, you use one cup of milk, flour, one egg and salt. Then,
you use cheese and turkey.

Finally, bake it for twenty minutes at 180 C

Georgia Bertsovli
B' Senior

How to make an English Cake

Get 2 eggs, 2 teaspoon salt 1 teaspoon vanilla, 1 teaspoon of fresh orange peel, $\frac{1}{2}$ cup of yogurt, $\frac{1}{2}$ cup of fresh orange juice, 1 pack of sweetened fruits peel or $\frac{1}{2}$ cup of patisins and walnut, $\frac{1}{2}$ cup of oil 1 $\frac{1}{4}$ cup of sugar and 2 cups of flour. Put all the ingredients in a bowl and mix them well! Then heat the oven to 180 C and bake for 35'

And you have just baked an English cake!!!!

Alex Skora
B' Senior

STILL hungry??

STILL in the right place!!!

My favorite recipe is the Greek souvlaki. Its recipe is very easy, you bake a pita and fry fresh potatoes and you can put whatever you want in it. The most common filling is tzatziki sauce. You cook the Greek gyro for 30' and when we have prepared all the ingredients, we put them all inside the pita, wrap it with a little greaseproof paper and the Greek souvlaki is ready!!

Bill Pasvagas
B' Senior

Chocolate balls

Ingredients you' ll need: milk, butter chocolate.

First, you are going to put the ingredients in a bowl and heat them in the microwave for 1'. Then you are going to make little balls from this mix. Next sprinkle them with chocolate sprinkles. After that you are going to put them in the fridge.

Fainareti Chronaki
B' Senior

Tortilla

Ingredients you' ll need: tortilla, vegetables, ham, cheese and sauce.

First you are going to lay flat the tortilla. Then you spread the sauce, you put the ham, the cheese and the vegetables. Next roll the tortilla and eating it! **Mmmmmmm It is delicious!!!**

Fainareti Chronaki
B' Senior

Zakynthos

Peggy Prifti
C' Senior

Zakynthos is the third largest Greek island in the Ionian sea after Corfu and Kefallonia. From May to October it rarely rains and temperatures are between 30-40 C.

The cuisine of Zakynthos is characterized by garlic which is included in all their dishes, while their characteristic sweet is the mandolato. The Venetians influenced Zakynthos (Zante in Italian) with their food, as they brought to the island corn, tomatoes, beans, peppers, potatoes as well as coffee, chocolate and much more.

One of the reasons you can visit Zakynthos is because in the southern part of the island there are the turtles CARETTA-CARETTA. It's a rare category protected by Greek law. In the western part of the island there is the seal MONACHUS-MONACHUS which is also protected by the local government.

You must definitely see the view from the Cape!

Cape Keri is a place on the island of Zakynthos mostly extended to the south. Most characteristic points are two rocks protruding from the sea and the lighthouse. Cape Keri is a cliff coast, so you can't get to the sea. You can only come to the edge of the cliff and enjoy the view.

Finally, don't forget to visit NAVAGIO, one of the most beautiful sights you can see. The coast is made of millions of small stones and of the blue shades of the sea. It looks unique and the ship as if it was put there by the hand of an artist. You can only visit it by sea because it's covered by rocks.

The ship was found on 5th October 1980 by Economic Police patrol boat and found to be carrying contraband cigarettes. Before the setting the coast was called Ai Giorgis, while now it is known as the “Navagio”.

Portugal

*Katsaros Jim
C² Senior*

Portugal, or the Portuguese Republic, is a country in Southern Europe and was founded in 1143.

The mainland is located at the southwestern end of the Iberian Peninsula and borders Spain, while it is bordered to the west and south by the Atlantic.

The climate is characterized by mild winters and pleasant summers.

Portugal has 10,33 millions inhabitants and its capital, Lisbon, has 504.718.

The most touristic cities of Portugal are Lisbon its capital, Porto which is the second largest city, Algarve, Madeira, Sintra, Óbidos, Fátima, Coimbra and Azores.

The most popular foods and sweets are pastel de nata a sweet that has a history of 200 years, Polvo à Lagareiro, Porco preto, Sardinhas assadas, bacalao salted, polvo a lagareiro, piri piri chicken and many more.

Fado music is Portugal's musical pride. The musical genre, which hides the history of Lisbon and Coimbra, is the most recognised music of Portugal and is considered a national treasure.

Japanese Cuisine

*John Geladas
B' Senior*

The traditional cuisine of Japan is based on rice with miso soup and other dishes; there is an emphasis on seasonal ingredients. Side dishes often consist of fish, pickled vegetables, and vegetables cooked in broth.

Seafood is common, often grilled, but also served raw as sashimi or in sushi. Seafood and vegetables are also deep-fried in a light batter, as tempura.

Apart from rice, a staple includes noodles, such as soda and udon.

Ramen is a Japanese noodle dish. It consists of Chinese-style wheat noodles served in a broth; common flavors are soy sauce and miso, with typical toppings including sliced pork, nori (dried seaweed), menma (bamboo shoots), and scallions.

Sushi is a Japanese dish of prepared vinegared rice, usually with some sugar and salt, plus a variety of ingredients, such as vegetables and any meat, but most commonly seafood, often raw but can be cooked. Styles of sushi and its presentation vary widely, but the one key ingredient is sushi rice.

Tempura is a typical Japanese dish that usually consists of seafood and vegetables.

The history of BMW

*Nikos Naska
C' Senior*

The official founding date of the German automobile manufacturer BMW is 7 March 1916 when the aircraft manufacturing company Bayerische Flugzeugwerke was founded. This company was renamed to Bayerische Motoren Werke (BMW) in 1922.

However, the BMW name dates back to 1917, when Rapp Motorenwerke changed its name to Bayerische Motoren Werke. BMW's first product was a straight-six aircraft engine called the BMV IIIa.

After the end of World War I, BMW remained in business by producing motorcycle engines, farm equipment, household items and railway brakes. The company produced its first motorcycle, the BMW R32, in 1923.

BMW became a car manufacturer in 1928 when it bought Fahrzeugfabrik Eisenach, which at the time built Austin Sevens under license (under the Dixi brand). The first car sold as a BMW was a rebadged Dixi called the BMW 3/15.

During the 1930s, BMW expanded its sights to sports cars and larger luxury cars. BMW also produced other cars and thus became one of the biggest German car brands.

BMW released their first electric car, the BMWi3 city car, in 2013

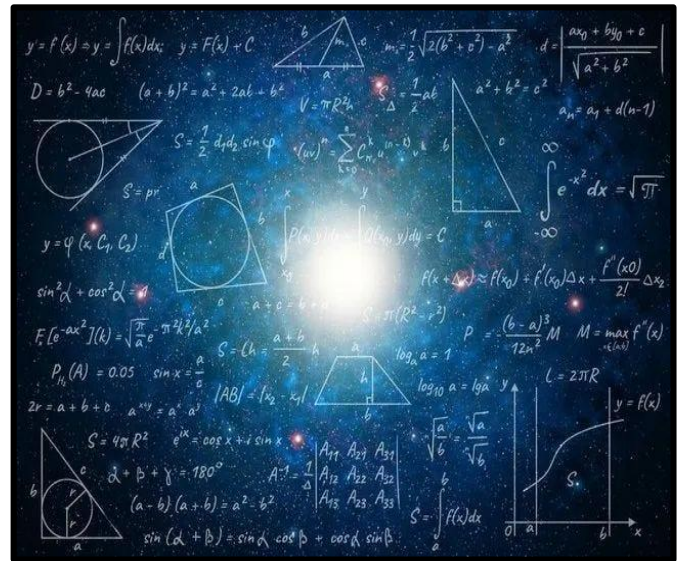

In 1960, the development program began for a new range of models, called the "Neue Klasse" (New Class) project.

Science and Technology in Ancient Greece

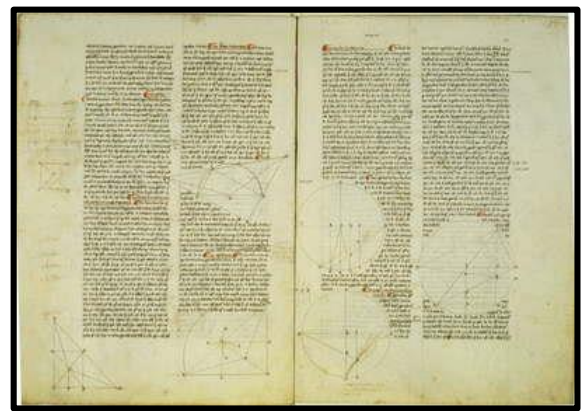

Ancient Greek mathematics contributed many important developments to the field of mathematics, including the basic rules of geometry, the idea of formal mathematical proof, and discoveries in number theory, mathematical analysis, applied mathematics, and approached close to establishing integral calculus.

Zinon Papazogonopoulos
D' Class

The discoveries of several Greek mathematicians, including Pythagoras, Euclid, and Archimedes, are still used in mathematical teaching today.

In the 2nd century BC Hipparchus of Nicea made a number of contributions, including the first measurement of precession and the compilation of the first star catalog in which he proposed the modern system of apparent magnitudes.

The Antikythera mechanism, a device for calculating the movements of planets, dates from about 80 BC and was the first ancestor of the astronomical computer .

It was discovered in an ancient shipwreck off the Greek island of Antikythera, between Kythera and Crete.

The device became famous for its use of a differential gear, previously believed to have been invented in the 16th century, and the miniaturization and complexity of its parts, comparable to a clock made in the 18th century.

The original mechanism is displayed in the Bronze collection of the National Archaeological Museum of Athens, accompanied by a replica.

CHERNOBYL

26 / 4 / 86

Stratos Plafoutzis
C' Senior

In 1986's in Ukraine the nuclear reactor I Chernobyl factory exploded. It was one of the biggest nuclear accidents.

The neighboring village Pripyat will remain uninhabited for the next 3000 years to get rid of the radioactivity and the other village Kopaci was buried in the explosion.

The dead of this accident reached 2000 and another 28 were found 2 years later. Most of the people who died were men of the factory and fire fighters who went to put out the nuclear fire that had ignited above the reactors 4 that they blew up.

Even though the accident occurred in Ukraine, Belarus absorbed 70% of the radioactivity. To cover the reactor they placed a large structure like a turtle shell, with a silver color so that no more radioactivity is exposed. It was so big that it towered over the Statue of Liberty and weighed three times more than the Eiffel Tower. This building cost a total of 21€ billion.

Even though the levels of radioactivity were increasing some people in the village of Pripyat decided to stay in the buried village. But for the radiation they could not eat animal products, such as, milk, cheese and especially meat, fruits, vegetables and generally what you produce from nature.

How the world will look like in 2050

Ledion Agalliu
C' Senior

Robots and Artificial Intelligence might play bigger roles in our daily lives.

Efforts to tackle climate change could lead to greener practices and sustainable living.

However, there may be challenges like job changes due to automation.

In 2050, the world is expected to be more technologically advanced with renewable energy, smarter cities and improved healthcare.

People might be more connected globally, but international relations could also face uncertainties.

Overall, while exciting advancements are anticipated, how we handle issues like the environment, technology's impact and global cooperation will greatly influence the world in 2050.

Grandparents

Pavlos Farooqui
B2

Grandparents play an important role in family life since they are approachable, but the question is, what makes a good grandparent? First of all, a grandparent should be patient and friendly with their grandchild. Young grandchildren might be naughty, thus grandparents need to repress their anger so they won't hurt them. Furthermore, they could share their knowledge and give them advice about future life. In this way, children will get mature faster and know when to act according to the situation.

Secondly, it's important that they have to be generous and willing to help. For instance, they must keep a family together and have the ability to keep the peace at home. This is as valuable as giving gifts to their family. The family members would be happier and appreciate the love they receive.

To sum up, grandparents are as important as parents, because their role is as important .

The Waterboom festival

*Nikos M.
B2*

If you love music and water, then the Waterboom Festival is the place for you. It's a huge venue and it takes place in the OAKA stadium, Athens. It's the number-one choice for rap concerts.

Last but not least, there are water splashes everywhere, so visitors must be prepared! For me, the best thing about the Waterboom Festival is its refreshing atmosphere. It's the best place to go to during the hot summer days, as you and your friends both hang out and cool down during hot summer nights.

I'd definitely recommend going there, especially if you plan to go with friends. It will be an unforgettable experience!

Every summer, many well-known artists perform there. From rappers to pop singers, they can all be found in the Waterboom Festival. Music isn't the only reason why this festival is so famous though. People can also meet their favorite artists and influencers, talk to them and get autographs. That's amazing, isn't it?

Disneyland Paris

Evaggelia Vintzilaiou
B' senior

Disneyland Paris was built in 1992. It is a huge theme park. It consists of two big parks: Park Disneyland and Walt Disney Studios.

People who visit Disneyland feel like children and children feel like Disney heroes, everything inside the park is fairytale-like.

I believe that it is the most beautiful experience that anyone can live!

Disneyland is divided into five themed “lands”: Main street, Fantasy land, Frontier land, Adventure land and Discovery land. Disney land is like many luna parks combined.

The history and evolution of AEK Athens

*George Lioliakis
D' Class*

AEK Athens was established by Greek refugees from Constantinople in 1924. The founders of AEK met at the athletic shop “Lux” owned by Emilios Ionas and Konstatninos Dimopoulos on Veranzerou Street and created AEK.

Their intention was to create a club that provided athletic and cultural diversions for the thousands of Constantinopolitan refugees who had settled in the new suburbs of Athens, including Nea Filadelfia, Nea Ionia & Nea Smirni.

AEK's first president, Konstantinos Spanoudis, a journalist and associate of the prime minister Eleftherios Venizelos, petitioned the government to set aside land for the establishment of a sports ground.

UEFA EURO

*Albi Agalliu
C' Senior*

The UEFA European Football Championship is a football tournament which takes place every 4 years in different countries. The first Euro was held in France in 1960. It was won by the Soviet Union, who beat Yugoslavia 2-1 in Paris after extra time.

It is the most important international tournament for Europe. It is the second most watched by a global audience of around 300 million. It was originally called the European Nations Cup before changing to Euro in 1968.

Before entering the tournament, all teams, apart from the team of the country hosting the tournament, compete in a qualifying process.

Euro 2024 is the newest Euro Germany will host. 24 teams will be taking part. The finals will be held in Olympiastadion in Berlin with a capacity of 75000 viewers.

Some of the most iconic players that have taken part in Euro is Zidon, Ronaldo, Buffon, Balatelli, Xavi, Inesta, Bale and many others.

A fun fact is that 2020 Euro was cancelled because of Covid-19. UEFA changed the year and the tournament was postponed to June and July 2021.

Nations that had won the tournament is the Soviet Union once, Spain three times, Greece once, Germany two times, France two times, Portugal once, Danemark once, Italy two times, Netherlands once and Czechoslovakia once.

Enjoy our C Senior's SURVEY

After the class survey, we learnt that most students get very angry when someone is nasty to them and also when someone grabs something out of their hands.

Some students get quite angry when your friend lies to them, also when people talk to them or generally while they are watching a film.

Not many students get angry when their parents take their phones away or want something but their parents won't let them have it.

Our tips to students who get angry are to breath slowly, to go for a walk or to do some sport and talk to an adult or friend.

F

COMICS & SUPER HEROES CORNER

Stratos Plafoutzis
C' Senior

Our B senior's Superheroes

My superhero's name is Zablack, he was born in the planet sun. he wears a black costume because his skin is so shiny which makes you blind. His superpowers are to make things hot, he can make flames come out of his fingers and reads people's brains. He has a special belt which makes him fast.

John Geladas

My superhero is Flower Girl. Flower Girl is strong. She wears orange and blue clothes. She's got special flying gloves which help her fly. She is very fit. She has got magic hair which helps her catch bad people. In real life, Flower Girl is my mum. She is very beautiful! When she hears about a problem, she turns into Flower Girl. Flower Girl is a great superhero because she is kind and she wants to save the world. I think she's a superhero who everyone will love!!!

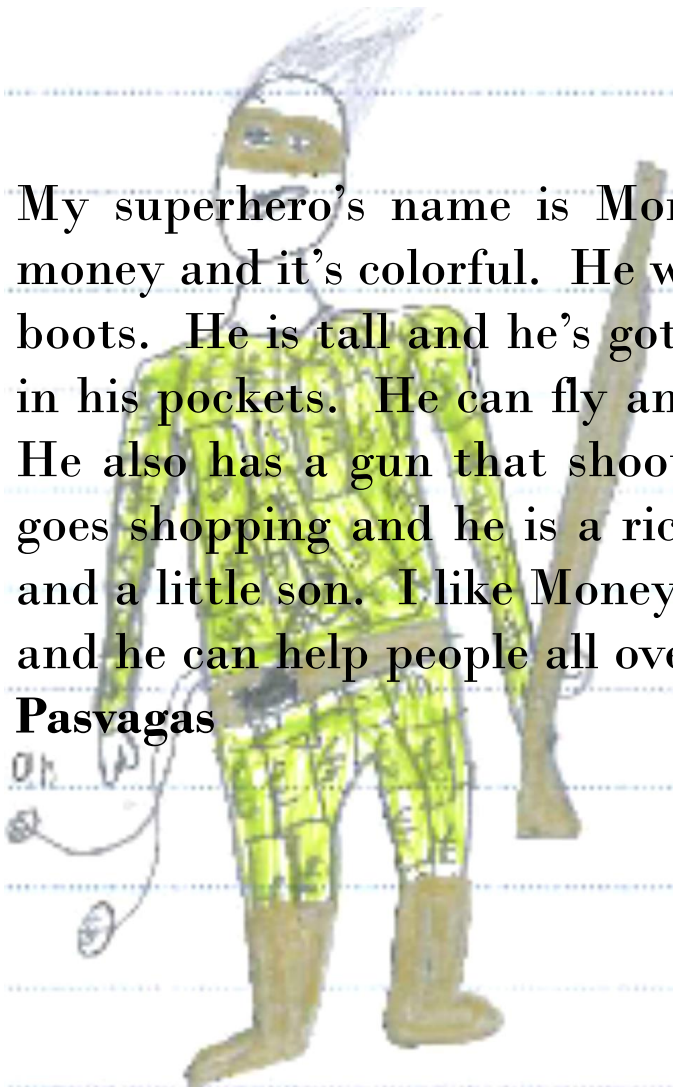

Evaggelia Vintzilaiou

My superhero is Familiar. Familiar is short. He wears red clothes and a red hat. He's got a special armor which helps him go underground. He is very strong and he is good at karate. He has got a magic gun which help him catch bad people. In real life, familiar is a student. He is clever and is good at science and maths. When he hears about a problem, he turns into Familiar. I think Familiar is a great superhero because he is kind and he wants to save the world. I think he's a superhero who everyone will love! **Chris Bilalis**

My superhero's name is Moneyman. His costume is made of money and it's colorful. He wears mask made of gold and golden boots. He is tall and he's got black hair. He has a lot of money in his pockets. He can fly and he helps people who need money. He also has a gun that shoots coins. In his real life Moneyman goes shopping and he is a rich football player. He has a family and a little son. I like Moneyman because he has a lot of money and he can help people all over the world because he can fly. **Bill**

Pasvagas

My superhero is vet boy. Vet boy is tall. He wears black and red clothes. He can fly with his boots. He fights villains every day and he helps good people. In real life he is a vet. Vet boy turns into a superhero when someone needs his help or when he sees bad people. My superhero is strong, heavy, healthy, beautiful and pink. I like him because he is strong, heavy and healthy.

Jim Bakoulis

I don't have a favorite superhero.....I am a superhero!!!!

Name: Iteraniaf

Age: 13

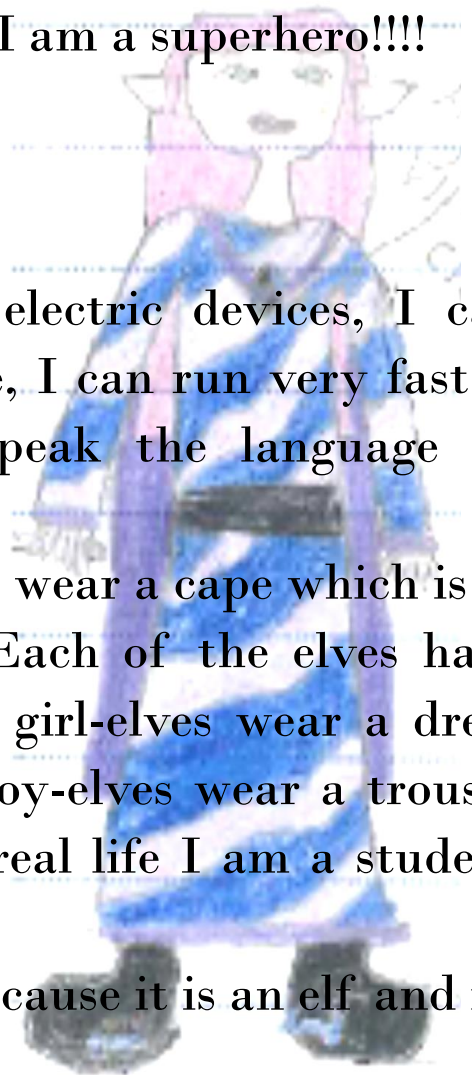

Origins: Eternalia

Powers: I am telepathic so I repair electric devices, I can understand the feelings of other people, I can run very fast, I can breath underwater and I can speak the language of animals.

Eternalia is the land of elves. The elves wear a cape which is in different colors. My color is purple. Each of the elves have boots with their name on them. The girl-elves wear a dress which is in their favorite color. The boy-elves wear a trouser and a shirt in their favorite color. In real life I am a student who goes to foxfair school in Eternalia.

I think Iteraniaf is a great superhero because it is an elf and its magic is good!

Fainareti Chronaki

My superhero is Blackgirl. Blackgirl is tall. She wears black clothes and black bracelets. She's got special boots which help her fly. She is very strong and she is very brave.

In real life, Blackgirl is a teacher. I think she's a superhero who everyone will love!!

Georgia Bertsoikli

B Senior's QUIZ

CAN YOU GUESS MY JOB?

A

Evaggelia Vintzileou

I love animals. I like my job because I can help sick animals. I believe that pets are people's best friends. I am a/an

Fainareti Chronaki

I love animals a lot. In my job take care of them. I work early in the morning until late at night. In my free time I listen to music and relax. I am a/an

Dimitra Pasvaga

I work till late at night. I learn about new things quickly. In my free time I like reading books about wild animals. I am a/an.....

B

Jim Bakoulis

I go to houses quickly and I put out the fire. I work every day. I never go to bed early. In my free time I sleep, I play card games and I solve puzzles. I can even do the hard ones. I am a/an.....

C

John Geladas

I can control my feelings. Many people know me. My job gives me a lot of money. I am a/an

D

Bill Pasvagas

I can save lives. I am a person who can save lives from major diseases, but I must also know English because people from all over the world will come. I wake up early because I have to prepare my tools. This job is very difficult. I am a/an.....

E

Chris Bilalis

I collect information. I interview important people. I share information by TV or radio. I am a/an.....

F

Georgia Bertsovli

I can take an order. I'm wearing a white shirt and I get the foods. I am a/an.....

Let's have some fun!

Let's have more fun!

It was oral examination. The class teacher asked various questions to the students.

She asked Tom, *'Can you tell me a name of an animal that starts with alphabet 'E'?'*

Tom replied *'ELEPHANT'*

Teacher asked him again to name an animal that starts with alphabet 'T'.

Tom replied *'Two Elephants'*

Teacher asked him the same question.

Tom replied *'Ten Elephants'*

Annoyed teacher, asked him name an animal that starts with alphabet 'M'

Tom replied *'Mother Elephant'*

The angry teacher repeated the same question.

Cool Tom replied *'May be an elephant'*

Study *Tips*

1. Get organized

2. Don't skip class

3. Take notes

4. Talk to your teacher & ask questions

5. Space out your studying

6. Create a study plan - & stick to it

7. Don't just re-read but study

8. Set up a quiet study space

The LEARNING **team**
